

KÖR[®] WHITENING SYSTEMS

KÖR HOME

An at-home whitening system that provides patients with exceptional results at a great price. 2 weeks at-home day or night whitening.

KÖR MAX

Our most popular whitening system. This versatile and super-effective system combines 2 weeks of at-home whitening with one in-office visit to ensure exceptional results.

KÖR ULTRA

For moderately resistant cases such as fluorosis, dark geriatric and other difficult cases. An initial in-office conditioning visit combined with 3 to 4 weeks of at-home whitening followed by one in-office visit. *Not intended for tetracycline cases.*

KÖR ULTRA-T

A complete whitening system specially designed to deliver phenomenal results for tetracycline or other exceptionally resistant cases. An initial in-office conditioning visit combined with at-home whitening for 6 to 8 weeks followed by a final in-office visit.

FOR TYPICAL PATIENTS

FOR DIFFICULT CASES

FOR TETRACYCLINE CASES
